***New Operational Concept for a
New Era***

The Old Path

- Presence/Engagement
- Timely Crisis Response
- Projecting Power
- 15 CVBGs/14 ARGs

- 12 CVBGs
- 12 ARGs
- ~310 ships

2001
QDR

Dual MTW/3 Hub Presence

GNFPP

New Strategy...New Structure

- Presence/Engagement

Navy-Marine Corps Global CONOPS

Operational Transformation

Operational Transformation

Navy Force Structure

...Driven by Strategy and CONOPs

- Why do we need more ships?
 - Provide capabilities required to win future wars against evolving threats
 - Missile defense, littoral undersea warfare, defense against swarming small boats
 - Eliminate projected warfighting shortfalls
 - Escort of logistics force, prepositioning ships, mine warfare assets
 - Provide increased combat-credible forward presence required by Defense Planning Guidance
 - Fully implement the Global CONOPs

What New Ships Are Needed?

- DD(X) – deployed with the ESG
 - Naval Surface Fires in support of Marine and Joint operations ashore
 - Land attack and strike
- Littoral Combat Ship (LCS) – theater asset
 - Provide capabilities against asymmetric threats
 - Assure access

What Is the Required Fleet?

- Today's Navy

Amphibious Ships				Surface Combatants	Submarines			CLF	Command	Support	MIW	Total
CV(N)	LHA/D	LPD	LSD		SSN	SSGN	SSBN					
12	12	13	12	116	54	0	18	30	4	21	16	308

- Tomorrow's Vision - *Maximum Power*

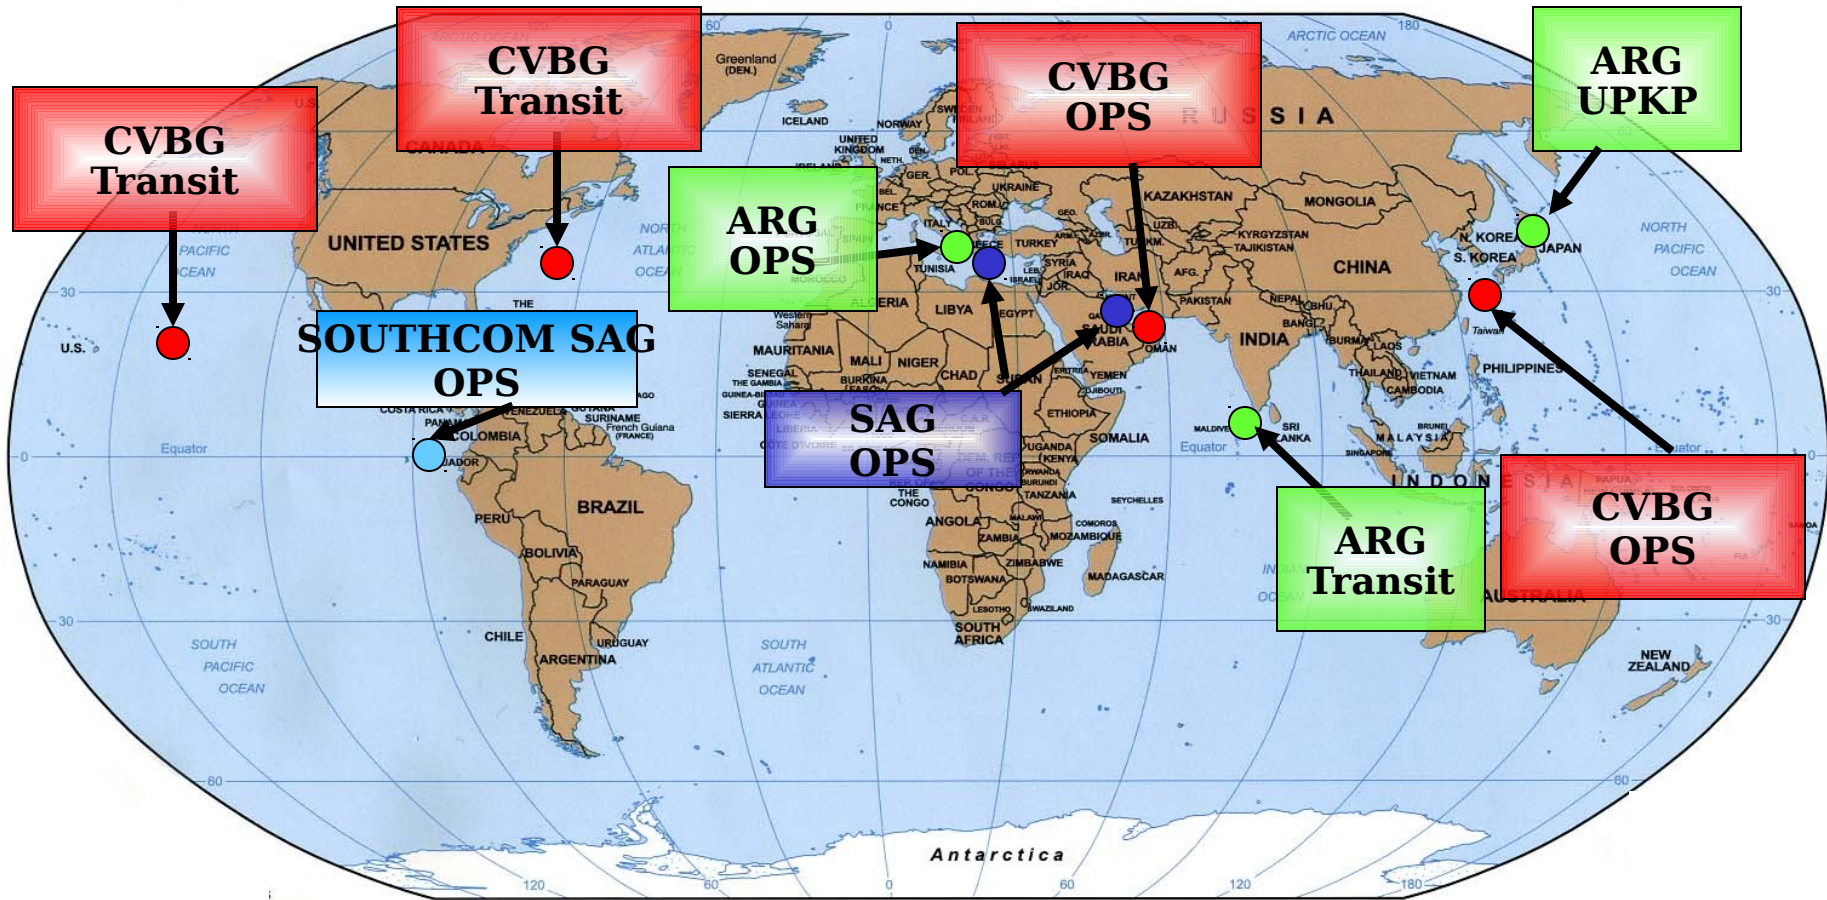

Forward

Amphibious Ships				Surface Combatants	Submarines			CLF	Command	Support	MIW	Total
CV(N)	LHA/D	LPD	LSD		SSN	SSGN	SSBN					
12	12	13	12	160	55	4	14	42	4	21	26	375

Requirements under review in Seabasing study
